TOURWEAVER INSTRUCTIONS:

- 1) Select your html, zip, and Sound file generated from your TourWeaver export application. The sound and jpg files may be selected from there sub-folders on your p.c. The directories are /Sound and /Scene.
- 2) If you have more than 10 Scene pictures, just upload the other Scenes in subsequent uploads (no need to re-upload the .html, .zip, and .wav/.mp3 files)
- 3) Click on the first branded preview link on the edit of a listing (page-023.php). See the image that follows for where the link exists.
- 4) If you have problems with the first tour you've done, please contact tech support to ensure we know if you're using the standard or professional version of tourweaver.

Virtual Tour Links

How Do I...?
